

Introducing the Allard UK Carbon Footplate!

The new Allard Carbon Footplate has been meticulously crafted, drawing upon more than 25 years of expertise in the field of carbon composite AFOs. This footplate undergoes an autoclaving process, is lightweight and perfectly aligned with the shape of the shoe for an enhanced and comfortable fit. Significantly, the footplate plays a crucial role in alleviating pain for patients suffering from a range of conditions, such as stress fractures, injuries, or arthritis in the forefoot and/or the midfoot area.

A photograph of two hikers, a man and a woman, seen from behind as they hike up a rocky trail. Both are wearing large backpacks and using trekking poles. The man is on the left, wearing a grey backpack and dark shorts. The woman is on the right, wearing a blue backpack and dark shorts. They are in a mountainous, forested area with a lake visible in the distance.

Support for Better Life!

Introducing the Carbon Footplate from Allard UK

The Carbon Footplate serves the purpose of safeguarding the MTP (metatarsophalangeal) joints and the forefoot. It achieves this by restricting the range of motion, evenly distributing pressure in the forefoot, and aiding in the smooth transition of weight during ambulation. Furthermore, this footplate can be utilized to gradually restore mobility following a period of immobilization, typically in conjunction with a post-operative shoe or walker. It has the potential to enhance balance for individuals who have undergone toe amputation, specifically the fourth (IV) and/or fifth (V) toes.

For optimal usage, it is essential to use an insole or custom foot orthotic in conjunction with the footplate.

Indications:

Hallux rigidus, Hallux limitus, stress fractures, and various other injuries or arthritic conditions in the forefoot and/or midfoot.

Item no	Size	Left/Right	Length	Width
280351011	Small	Left	235 mm	77 mm
280351012	Medium	Left	255 mm	80 mm
280351013	Large	Left	275 mm	90 mm
280351014	X-Large	Left	305 mm	99 mm
280352011	Small	Right	235 mm	77 mm
280352012	Medium	Right	255 mm	80 mm
280352013	Large	Right	275 mm	90 mm
280352014	X-Large	Right	305 mm	99 mm

Leading the way in Carbon Composites

With a legacy spanning over 25 years, we've been at the forefront of innovation and development in Carbon Composite AFOs, amassing a wealth of knowledge and expertise in composite materials and processing techniques. Our state-of-the-art facility is where we craft our Carbon Footplate, employing the most advanced composite manufacturing techniques and cutting-edge equipment. What sets us apart is our commitment to quality, all the while maintaining our commitment to sustainability, as we proudly produce our Carbon products with 100% renewable energy, making us an industry leader in eco-friendly manufacturing.
